Meet your new workmate

Your comfort matters. Therefore, ABAC created a small screw compressor with an extremely low noise level, comparable to your airco system. Very compact and easy to install, ABAC SPINN compressors offer excellent savings on installation and piping costs, especially on the compact model

A safe investment for continuous use

ABAC SPINN compressors are 30% more efficient than piston compressors and have a longer lifetime due to less vibration and fewer moving parts.

The world of ABAC

Original parts. Your quality assurance.

Your Authorized Distributor

The 'original part' identification confirms that these components passed our strict test criteria. All parts are designed to match compressor. They have been thoroughly tested to obtain the highest level of protection, extending the compressors' lifetime and keeping the cost of ownership to an absolute

Compressed air at your service

Compressed air at your service

Join the ABAC advantage

Since 1980, ABAC offers the right mix of flexibility and experience for the industrial, professional and DIY compressed air markets. From state-of-the-art production facilities straight to your business via more than 300 distributors in more than 100 countries worldwide, ABAC provides you with plug & play air solutions with a quality label. We deliver trouble free workmates, both piston as well as screw compressors,

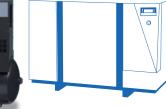

We follow your evolution!

Still remember when you started up your company and bought your first piston compressor? Thanks to your hard work and the smart decisions you made your business has grown. Now it is time to grow your equipment too. And ABAC is at your side: when moving from occasional use to continuous air flow. ABAC screw compressors deliver exactly what you need. Meet our new range of SPINN compressors.

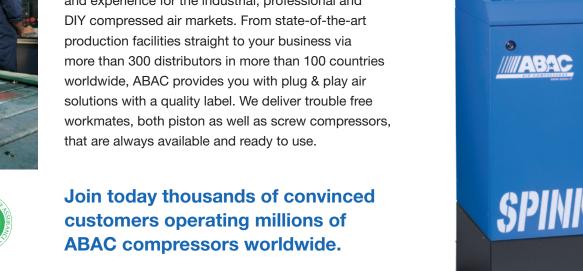

Thanks to the straightforward control panel, you have a clear overview of all the key parameters in no time. They guide you via easy accessible components through easy and fast operation and maintenance. So you can focus on more important matters.

Dedicated service kits support reliable and efficient operation and include all original parts in one single package. ABAC provides you with a simple solution based on the running hours

of your compressor. All parts easy at hand while providing highest protection of your investment!

Extra compact, cost efficient and easy installation where

Easy operating control panel

All the info you need to operate your compressor at a glance.

Compressed air

Efficient cooling

A coaxial fan provides excellent cooling of all the internal components, better than water cooled systems. This leads into higher efficiency and better reliability in operation.

Easy and cost effective maintenance

Long service intervals and external oil level check. Quick access to air & oil filters, air & oil separator, oil fill & drain.

Reliability, efficiency and robustness

The most advanced technologies in rotor design and oil household. Optimized seal arrangements and

Less noise and more energy saving

The automatic condensate drain discharges only water, no air. This silent process respects your working environment.

ES 99 Controller

Straight forward and user-friendly. Load time is adjusted to the air consumption, which prevents the electric motor from running if not needed.
